- ✓ Allows skin to breathe naturally.
- ✓ Gentle and safe for all the family.
- ✓ Suitable for use by people with chronic dry skin conditions.
- ✓ Dermatologist recommended.
- ✓ 3 brilliant SkinSure formulas Active, Daily and AfterSun to suit all your family skincare needs.

How SkinSure works

Everyday life often take its toll on our skin compromising the skin's natural barrier function.

SkinSure works by forming a protective layer that is...

...invisible,
breathable
waterproof and
long lasting...

...to replenish the skin's natural moisture levels whilst protecting against irritants and germs.

Try SkinSure today - 3 brilliant formulas to suit all your family skincare needs:

Barrier Cream → Active
All over body care → Daily
Sun, Surf, Ski, Wind → AfterSun

more than a moisturiser

more than caring for your skin

active protection

Confident protection

Antibacterial
barrier cream

Reassuring &
effective everyday

A unique barrier cream that offers confident protection against: germs, bacteria, allergens and irritants at the same time as gently moisturising your skin.

Bacteria and germs are easily spread by our hands. SkinSure Active's strong antibacterial properties continue for at least 3 hours killing 99.9% of them on contact before you have time to spread them. Proactively protecting you and your family's health and wellbeing.

Constant exposure to soaps, cleaning agents and other chemicals can strip the skin of its natural protective layer exposing your skin, leaving it at risk. SkinSure Active will replenish this layer and allow the skin to resist attack from harmful irritants restoring both moisture and confidence to your skin.

Applying SkinSure Active before going about your daily tasks protects your hands at home in the kitchen or laundry, when out shopping or anywhere else hygiene and protection from germs, allergens and irritants is important.

daily moisturiser

Gently nourishes

Antibacterial
body care lotion

Looking after
skin everyday

A gentle and mild formula which uniquely combines Aloe Vera and Jojoba Oil to soothe, deeply moisturise and soften your skin with antibacterial properties to gently protect even delicate skin from germs.

Everyday life can deplete our skin of moisture, leaving it dry, sore and sensitive. Airconditioning, heating, swimming and even alcohol based hand cleansers and wipes can play a part in compromising skin integrity.

SkinSure Daily gently replenishes the skin's natural moisture levels leaving your skin soft, nourished and protected.

It can be used safely and confidently on external parts of the body including the face.

Suitable for use by people who may be prone to chronic dry skin conditions as well as sensitive skins.

Ideal for all members of the family, including children.

after sun

Comforts & soothes

Rehydrating
& gentle lotion

After sun,
wind, surf & ski

Enjoying an outdoor lifestyle can take its toll on our skin. Salt water, sun, wind, surf and ski in all weather conditions can leave your skin feeling tight, over sensitive and dry.

SkinSure AfterSun contains Aloe Vera to cool and soothe your skin after exposure to the elements forming a breathable, protective layer that locks in moisture.

Non-greasy, absorbs quickly into the skin to deeply moisturise and rehydrate your skin.

It can be used on any external part of the body, including the face.

Suitable for use by people who may be prone to chronic dry skin conditions as well as sensitive skins.

Ideal for all members of the family, including children.
